# EB07086 - Goat Anti-Calcipressin 1 / DSCR1 Antibody

Size: 100µg specific antibody in 200µl

#### **Target Protein**

Principal Names: DSCR1, Down syndrome critical region gene 1, HGNC:3040, ADAPT78, CSP1, DSC1, MCIP1, RCN1, RCAN1, Down syndrome candidate region 1, adapt78 protein, calcipressin 1, calcium and oxidant-inducible mRNA, modulatory calcineurin-interacting protein 1, myocyte-enriched calcineurin-interacting protein 1, near DSCR proline-rich protein, regulator of calcineurin 1 Official Symbol: DSCR1 Accession Number(s): NP\_004405.3; NP\_981962.1; NP\_981963.1 Human GenelD(s): 1827 Non-Human GenelD(s): 54720 (mouse) Important Comments: This antibody is expected to recognise all three reported isoforms (NP\_004405.3; NP\_981962.1; NP\_981963.1)

## Immunogen

Peptide with sequence HVCESDQEKEE, from the internal region of the protein sequence according to NP\_004405.3; NP\_981962.1; NP\_981963.1.

# **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

#### **Applications Tested**

Peptide ELISA: antibody detection limit dilution 1:1000.

**Western blot:** Western Blot: Preliminary experiments in Human Heart, Liver and Muscle lysates gave no specific signal but low background (at antibody concentration up to 1µg/ml). We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates?

# **Species Reactivity**

Tested: Expected from sequence similarity: Human, Mouse, Rat, Dog
