EB05879 - Goat Anti-MURF1 / TRIM63 (N Term) Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: TRIM63, MURF1, MURF-1, RNF28, ring finger protein 28, IRF, SMRZ, MURF2, FLJ32380, iris ring finger protein, muscle specific ring finger protein 2, striated muscle RING zinc finger protein, tripartite motif-containing 63, muscle specific ring finger protein 1

Official Symbol: TRIM63

Accession Number(s): NP_115977.2

Human GeneID(s): 84676

Immunogen

Peptide with sequence DYKSSLIQDGNPM-C, from the N Terminus of the protein sequence according to NP_115977.2.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:32000.

Western blot: Preliminary experiments gave an approx 60kDa band in Human Skeletal Muscle lysates after 0.1μg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 40.2kDa according to NP_115977.2. The 60kDa band was successfully blocked by incubation with the immunizing peptide.

IHC: In paraffin embedded Human Skeletal Muscle shows strong staining in rare nuclei, and weak staining of muscle fibres in longitudinal section. Recommended concentration: 1.25µg/ml.

Species Reactivity

Tested: Human

Expected from sequence similarity: Human, Dog, Cow

EB05879 (1.25μg/ml) staining of paraffin embedded Human Skeletal Muscle. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
