EB07374 - Goat Anti-NEIL1 Antibody

Size: 100µg specific antibody in 200µl

Target Protein

Principal Names: NEIL1, nei endonuclease VIII-like 1 (E. coli), FLJ22402, NEI1, hFPG1, endonuclease VIII, nei endonuclease VIII-like 1

Official Symbol: NEIL1

Accession Number(s): NP_078884.1

Human GeneID(s): [79661](#)

Immunogen

Peptide with sequence C-KVKADIPSLEPE, from the C Terminus of the protein sequence according to NP_078884.1.

Please note the [peptide](#) is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:64000.

Western blot: Western Blot: Preliminary experiments gave an approx 75kDa band in Human Liver lysates after 0.01µg/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 43.7kDa according to NP_078884.1. The 75kDa band was successfully blocked by incubation with the immunizing peptide. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? Have any further splice variants/modified forms been reported?

Species Reactivity

Tested:

Expected from sequence similarity: Human
