### EB07594 - Goat Anti-STS2 / TULA (internal) Antibody

Size: 100µg specific antibody in 200µl

# **C**lite

### **Target Protein**

Principal Names: TULA, STS2 CBL-interacting protein 4, UBASH3A, ubiquitin associated and SH3 domain containing, A, T-cell ubiquitin ligand protein, Suppressor of T-cell receptor signaling 2, CLIP4 Official Symbol: UBASH3A Accession Number(s): NP\_061834.1; NP\_001001895.1 Human GeneID(s): <u>53347</u> Important Comments: This antibody is expected to recognize both reported isoforms (NP\_061834.1 and NP\_001001895.1).

#### Immunogen

Peptide with sequence QQCSTPDGKYYRPD, from the internal region of the protein sequence according to NP\_061834.1; NP\_001001895.1.

Please note the peptide is available for sale.

# **Purification and Storage**

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.

Aliquot and store at -20°C. Minimize freezing and thawing.

# **Applications Tested**

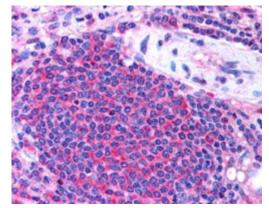

Peptide ELISA: antibody detection limit dilution 1:64000.

**Western blot:** Preliminary experiments gave an approx 48kDa band in lysates of B-cell line Daudi after  $0.1\mu$ g/ml antibody staining. Please note that currently we cannot find an explanation in the literature for the band we observe given the calculated size of 74.1kDa according to NP\_061834.1 and 69.8kDa according to NP\_001001895.1. The 48kDa band was successfully blocked by incubation with the immunizing peptide.

**IHC:** In paraffin embedded Human Spleen shows cytoplasm staining of T-cells eccentrically gathered around an artery. Recommended concentration: 2.5µg/ml.

# **Species Reactivity**

Tested: Human Expected from sequence similarity: Human, Dog

EB07594 (2.5 $\mu$ g/ml) staining of paraffin embedded Human Spleen. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
